## PROFILE

• A web developer driven to create apps with great user experience. Eager to take on new challenges and learn new technologies. Click here to view portfolio or visit <https://www.bernardyang.com>

## SKILLS

### LANGUAGES

- JavaScript, HTML, CSS

### TECHNOLOGIES AND FRAMEWORKS

- React, NodeJS, ExpressJS, REST API, JQuery, Git

### DATABASES

- PostgreSQL, MongoDB

### TESTING

- Mocha, Chai, Storybook, Jest, Cypress

## PROJECTS

### TWITTER REACT

- ✓ A basic twitter clone featuring reusable React components
  - Used useRef, useReducer for form state management
  - Added login modal with input validation

Tech: React, ExpressJS, MongoDB, React Router v6

### MAKE MY DAY

- ✓ A project management app and Kanban board for teams to manage projects and organize tasks
  - Implemented WebSocket for team members to communicate in real-time
  - Built drag and drop Kanban board that auto-prioritize tasks based on due date and priority
  - Created RESTful routes for users to create, edit and delete projects and tasks
  - Live demo hosted on Vercel and Heroku

Tech: React, ExpressJS, PostgreSQL, Socket.IO, Material UI, React Beautiful DnD, React Gantt Timeline, React Google Login

### SCHEDULER

- ✓ A SPA for users to schedule appointments with interviewers
  - Built with modern React functional components
  - Created using Test Driven Development (TDD): Unit and End to End (E2E) testing with Storybook, Jest and Cypress

Tech: React, ExpressJS, PostgreSQL

### SMART TO-DO LIST

- ✓ An app that auto organizes tasks into a to buy, to eat, to watch, or to read category
  - Implemented auto organize feature that uses Axios requests to match categories returned from these four api's: Wolfram Alpha, YELP, OMDb, Google Books
  - Added manual organization using regexp to filter keywords entered with a verb (buy, eat, watch, read)

Tech: JavaScript, JQuery, ExpressJS, Axios, SortableJS, PostgreSQL

## EDUCATION

### DIPLOMA IN WEB DEVELOPMENT

Lighthouse Labs | 2021

### DIPLOMA IN BUSINESS ADMINISTRATION
