

Bernard Yang

JR. FRONT END DEVELOPER
VANCOUVER, BC

PROJECTS

Mythic+ Player Count

An app that displays player count in World of Warcraft Mythic+ dungeons using automation with AWS

- Scheduled AWS Lambda function to call Raider.io API once a week and record a player count to DynamoDB
- Implemented a graph in React using Chart.js

Twitter React

A simple Twitter-like React app with Firebase authentication

- Implemented Firebase Login to manage authentication and used Formik/Yup for form validation
- Used Redux Toolkit to manage app wide state
- Implemented responsive web design for mobile devices

Make My Day

A project management app and Kanban board for teams to manage projects and organize tasks

- Built drag and drop Kanban board that auto-prioritize tasks based on due date and priority
- Created RESTful routes for users to create, edit and delete projects and tasks
- Implemented styling with Material UI
